- Adobe XD

WORK EXPERIENCE

Zoople Technologies(Intership)

Zap Meals - Food Delivery app

- Delivers a fast, user-centric experience that allows customers to browse menus, customize orders, and get meals delivered quickly—with features like real-time tracking, smart recommendations, and secure in-app payments for ultimate convenience.
- User-Centered Design - Championed a design approach focused on user needs, resulting in a seamless and engaging experience that boosted user retention and satisfaction.

Heal Hub - Hospital Website

- Created an intuitive, patient-friendly experience for users to book appointments, explore medical services, and access personalized health tools like an AI-powered symptom checker.
- Developed wireframes, interactive prototypes, and a consistent design system to ensure a seamless and responsive user interface across devices.

SKILL

- User Interface (UI) Design
- Experience (UX) Design
- Wireframing and Prototyping
- Web Design
- User Research
- Communication Skills
